Annual Update in Peritoneal Surface Oncology

20th, 21st, 22nd Feb, 2020 | Tata Memorial Hospital, Mumbai

Organising Chairman,
Dr. Sanket S. Mehta
Consultant Oncosurgeon Saifee Hospital, Sir H N Relaince Foundation Hospital
Chief of division of Peritoneal Surface Oncology, Saifee Hospital,
President of Society of Peritoneal Surface Oncology, India
Email: www.drsanketmehta.com Mobile: +91 9920302364

MMC Credit Points Applied
Dear Colleagues,

It is my great pleasure to invite you to our annual meeting on Peritoneal surface malignancies that will be held in Mumbai this year. Like the preceding years, this meeting addresses the needs of both beginners & experienced peritoneal surface oncologists providing a comprehensive update on the current standards of care in this field as well as the emerging therapies.

We are privileged to have Dr. Paul Sugarbaker & Dr. Yonemura with us who will be giving a live surgical demonstration. It is a great opportunity to learn from & interact with the person who has developed the principles of peritoneal cancer surgery. We are equally privileged to have with us Prof. Olivier Glehen from Lyon, France, Prof. Yutaka Yonemura from Osaka, Japan, Dr. Francois Quenet from Montpelier, France & Prof. Sang-Yoon Park from National Cancer Center, Korea.

Extending over two & half days, the program will cover the basics, topics of debate & the new developments in this field. Peritoneal surface oncology is a discipline - it's not just the science but the 'approach' & there cannot not be a better meeting to attend for all those seriously interested in this field.

We look forward to your participation in this academic endeavour.

On behalf of Organising Team,

Dr. Sanket Mehta
Organising Chairman
Our Esteemed International Faculty

Professor Paul Hendrick Sugarbaker needs no introduction. He is Secretary-General of PSOGI (Peritoneal Surface Oncology Group International) & Director of Center for Gastrointestinal Malignancies, MedStar Washington Hospital Center. With over 800 articles to his credit, he is the pioneer in the technique of CRS + HIPEC & EPIC. He has trained hundreds of surgeons & is responsible for popularising this technique all over the world. He has been hugely influential in developing & supporting this activity in India & has visited India on several occasions to give live demonstration surgeries to teach this technique.

Prof. Yonemura is a prolific surgeon & researcher from Osaka, Japan. He has over 290 publications to his credit in a career spanning 41 years. He has published extensively on stomach cancer & peritoneal metastases from stomach cancer. He is the pioneer in the development of NIPS as a neo-adjuvant therapy for peritoneal metastases from stomach cancer, besides having the largest experience in HIPEC in stomach cancer. Besides clinical studies, he has conducted several basic sciences studies on the pathogenesis & pattern of spread of peritoneal metastases.
Our Esteemed International Faculty

Professor Olivier Glehen, MD, PhD is the Head of the General & Oncologic Surgery Department in Centre Hospitalier Lyon Sud (Hospices Civils de Lyon) & in Lyon Sud Charles Mérieux Medical Faculty since 2012. He is the Director of the Peritoneal Carcinomatosis Research Group (Claude Bernard Lyon 1 University). With over 330 articles to his credit, he is one of the most influential researchers in the field. His experience with the RENAPE group & PSOGI makes him an invaluable teacher & pioneer in newer techniques in the treatment of peritoneal surface malignancies.

Dr. François Quénet is an Expert in digestive & hepatobiliary surgery. He is the Head of HPB & peritoneal surface malignancies unit in Institut du Cancer de Montpellier Val d’Aurelle, France. He has over 250 scientific articles to his credit in the field of CRS+HIPEC & hepatobiliary surgery. He is the principal investigator of the recently concluded ProdiGe 7 study that laid down the background for CRS in Colorectal cancer. He is an integral part of the RENAPE & PSOGI groups & is also involved in the research & application of newer techniques like NIPS & PIPAC in colorectal cancer.

Annual Update in Peritoneal Surface Oncology
20th, 21st, 22nd Feb, 2020 | Tata Memorial Hospital, Mumbai
Prof Park Sang Yoon is the Doctor/Principle Scientist at the Center for Uterine Cancer, National Cancer Center Korea, & Adjunct professor at the Department of O&G, at Seoul National University, Seoul, Korea.

A keen researcher, Prof Park is heavily involved in clinical trials related to Ovarian Cancer, & has published heavily in international journals on ovarian cancer. With 167 publications to his credit, he is a pioneer & a world-renowned leader in gynaec-oncology. Apart from clinical research, he is involved in pre-clinical & molecular research in this subject.

Dr. Faheez Mohamed has been involved in research on peritoneal surface malignancy & has published extensively on the subject. He is currently Consultant Surgeon at the National Commissioning Group Pseudomyxoma Peritonei Centre at the Basingstoke & North Hants Foundation Trust, the centre with the largest experience in PMP in the world.

Mr Mohamed is a Consultant Colorectal Surgeon at the BNHFT & forms one of five partners of the Basingstoke Colorectal Partners at The Hampshire Clinic.
Dr. Teo is visiting Consultant National Cancer Centre. Dr. Teo is skilled in the management of stomach & colorectal cancers, sarcoma, melanoma, & peritoneal disease. She is the first President of the Asian Peritoneal Surface Malignancy Group with her vast experience in Cytoreductive Surgery & Intraperitoneal Chemotherapy (CRS & HIPEC) for the treatment of peritoneal disease.
